## What is the DNG?

The DNG is a virtual network group that exists to support anyone working for or with young people in the eastern region.

The group will not have to meet in person but it will serve the whole region as a support network to improve communication between practitioners, schools, venues and the wider arts sector.

East Youth Dance will continue to have a presence on existing groups across the region, meaning DNG members will receive the latest dance news and opportunities.

## Youth Dance England

Youth Dance England is the national organisation that champions dance for children and young people. We work to ensure that dance is available to all, both in and outside of school. Through a shared vision with the national youth dance network and other partners, our aim is to:

- increase access
- raise standards
- improve progression routes

*“Since joining the DNG I have been offered a wide range of support and it has enhanced my knowledge of the region’s dance sector. The DNG has also supported me through a series of CPD programmes which I have benefited from in many ways.”*

Niki, Dance Practitioner.

**We want to support you and/or your organisation**
